WE SPECIALIZE IN

● **Navigating decisions about the care of a loved one**

Asking the right questions, finding the necessary resources, and arranging appropriate care can be a confusing, demanding and stressful process. It's often difficult to know where to begin

● **Transition Assessment**

OSRAA members look at a variety of areas: health requirements, client/family preferences and financial resources. This information is used to make recommendations regarding the most safe and appropriate client-care settings.

● **Health Care Guidance and Referrals**

Our members can guide and refer clients to any and all levels of care, including in home care, independent living, assisted living, adult care homes, residential care, memory care, hospice services, movers, elder law attorneys, etc. Across Oregon, SW Washington and the nation – we can help!

● **No Obligation Consultations**

An initial interview with the client and/or involved family members provides the opportunity to ask questions, explore options and consider the costs of varying care scenarios,
